All Stores List

Profile information on every store in the market. Store profile information includes the Store Name, Store Address, Total Rentable Square Footage, Year Opened, Company owner and/or Operating Company, Rate Volatility over the past 30 days.

Total Square Feet values displayed here are obtained from public sources, including city and county property records. When this information is unavailable, StorTrack uses mapping tools or internal models to estimate the size of the property - such properties have an asterisk (*) next to their Total Square Feet value.

How is Rentable Square Feet (RSF) calculated for each property?

RSF is 95% of TSF if the property has 1 floor | RSF is 85% of TSF if the property has 2 floors | RSF is 75% of TSF if the property has 3 or more floors | RSF is 95% of TSF if the property has an unknown number of floors

The class type is a proprietary store classification system. Facilities are categorized based on data concerning rental rates, population, median household income and more.
